Join us in the Peoples Mobilisation to dismantle the Architecture of Impunity and the Corporate Capture of the United Nations Conference on Climate at the "Paris 2015" - COP21

Among the key drivers of the environmental collapse that affects the whole planet, it's important to highlight the Trade and Investment regime as well as the role of Transnational Corporations (TNCs).

Among the Top 25 corporations classified by revenue, 15 are linked to the fossil fuels industry, being accountable for greenhouse gas emissions – e.g Shell, Exxon-Mobil, Sinopec-China Petroleum, BP, Petro China, Total, Chevron, ENI, Petrobras, Gazprom, Statoil. Corporations are also leading the false solutions to climate change, based on profit-making schemes, as well as aggressively capturing the agenda and policy making of the UN climate talks.

Over the last 40 years of neoliberal capitalism, we have witnessed TNCs emerge as major global forces exercising unprecedented and unaccountable economic and political power. This power is expressed through accumulation of wealth: 37 of the world's 100 largest economies are corporations. TNCs operate in and seek to control major areas of human life, such as food production, land, natural resources, energy, water, health, public services and finance. They expand the further enclosure of the commons through a global resource grab, and act with widespread impunity despite the devastating social, economic and environmental impacts of their operations.

This corporate impunity is ensured by the architecture built on a Trade and Investment regime where agreements such as TTIP, CETA, TPP and TISA and other US and EU regional (EPAs) and EU bi-lateral country FTAs provide exclusive instruments of investor protection and deny protection to the public interest and to peoples rights.

To confront this situation, the coalition of more than 180 social movements, networks and organisations from the Global Campaign to Dismantle Corporate Power and Stop Impunity, convenes the **Peoples Mobilisation to dismantle the Architecture of Impunity and Corporate Capture**, on the occasion of the United Nations Conference on Climate "Paris 2015" (COP21).

In this programme you can find Mobilisations and self-organised activities that count on the strong support and participation of the Global Campaign and its members.

During the Days of Mobilisation in Paris, through different workshops and in coordination with several networks and campaigns on Trade-Investment and Climate Change, as well as with the Treaty Alliance, the Campaign will:

- * Open the space for a collective analysis on the exposure of cases of corporate impunity in different regions, jointly with members of affected communities and key actors from the Global South.
- * Present a concrete proposal for a **Peoples Treaty, based on Peoples Sovereignty**. This affirms an alternative vision on law and access to justice with the people as protagonists, political actors and originators of the laws and norms of a political, economic and legal system that will contribute to end the current framework of extraordinary privileges and impunity claimed by transnational corporations.
- * Share the state of play on the process towards a UN Binding Treaty and the work of the Inter-governmental Working Group (IGWG) and the challenges of effective participation by movements and CSOs.
- * Share strategies and flag up the political Calendar for better coordination of convergence activities to dismantle the Trade & Investment regime and the widespread corporate capture of political as well as economic structures.

Who are we Some of the main goals of the Global Campaign to Dismantle Corporate Power and Stop Impunity:

- * To strengthen the struggles of affected communities resisting corporate power and contribute to building a global movement committed to an alternative economic and political paradigm rooted in the dignity and well-being of people and nature.
- * Start the process of dismantling TNCs political economic and legal power, reclaiming public control over their operations, and hold dominant elites, politicians and corporate leaders responsible for corporations' economic and ecological crimes.
- * Demonstrate the collusion that exists between TNCs, complicit home and host States and International Institutions (e.g. WTO, WB, IMF, ICSID, OECD).
- * Establish, at the global level, the debate on the need for a binding framework, binding obligations, legal codes and an international body and mechanism of enforcement to regulate and sanction TNCs in various jurisdictions.
